ASTRA HOTEL

ENVIRONMENTAL POLICY

The Management of the Hotel Astra S.r.l is committed to disseminating its Environmental Policy both inside and outside its structure.

Hotel Astra S.r.l aims to establish itself as an example of a continuous and constant path over time by making environmental respect one of the main values of the business.

The Management confirms the choice to implement an Environmental Management System that complies with the requirements of the UNI EN ISO 14001:2015 standard as a strategic tool for its management.

Hotel Astra S.r.l is committed to:

- Comply with environmental legislation, all regulations and other requirements applicable to its activities and further requirements that apply to its environmental aspects;
- Protect the environment by preventing or reducing pollution linked to its activities, wastewater discharge, use of chemical substances, waste production.
- Adopting ecological criteria in purchases, promoting knowledge of one's territory and local products whenever possible.
- Encourage the rational use of water and energy resources by raising awareness among customers, suppliers and staff working within the Hotel.
- Guarantee an effective monitoring system of the most significant environmental aspects linked to the services provided by the customer.
- Pursue continuous improvement of its environmental performance through the definition of measurable, comparable objectives and goals and environmental indicators.
